

Primary 3/4/5 Term 4 Newsletter

Dear Parents/Carers

Hello, I hope you all enjoyed the Easter break. The class have come back happily into the routines of P3/4/5.

Timetable

This term we will continue to have PE on a Tuesday morning (after break) and a Wednesday afternoon so please remember PE kits.

The class will have time with Mrs Maclurg on a Tuesday afternoon and will be with Mrs Brooks every Wednesday.

We will have outdoor learning on a Thursday afternoon so please make sure that your child has appropriate shoes or wellies and a jacket for going outdoors.

Numeracy

This term we will begin by focussing on fractions then move onto looking at information and data handling. On a Wednesday Mrs Brooks will be teaching money then shape and symmetry with the class.

Literacy

This term we will continue to develop skills in listening and talking, reading, writing, and spelling. Children will be working in their spelling and reading groups each day, getting new spelling lists and books each week. Reading books will go home for you to read with your child twice a week. Children will be developing writing skills by focussing on story structure, using ambitious vocabulary, openers, connectives, and punctuation including writing and creating their own stop motion animations. Children will also have the opportunity to choose a book from the library to bring home and read.

Topic

This term we will be focussing on keeping healthy and looking after our bodies. Children will be learning about how the food we eat, exercise and sleep effects our body. We will learn about the different parts of our body, skeleton, and how different organs function. This term we will also be busy preparing for our class assembly.
